OPEN CONFERENCE SYSTEMS

OCTOBER 10, 2017 – OCTOBER 12, 2017

Abstract submission starts 1 May 2017

Therapeutics Discovery, Phase 1 and early phase clinical trial activities are the target of Kingdom of Saudi Arabia to enter the world of making and marketing new medicines.

In the last decade 56% of novel therapies are originated from the Academia and Biotech companies and 71% were “me-too” drugs coming from the Pharmaceutical companies.

The challenge for introducing new therapies into the market or development pipeline is based on the better understanding of the diseases biology and it is becoming apparent that the “single target for single disease” may be an outdated concept. A new approach being pursued is to dissect the molecular basis of the diseases and in this regard, a future trend includes using the immune system and cell therapy to fight the diseases to discover and develop new therapies for inflammatory and proliferative diseases. Also there is a focus to develop better drug delivering system based on Nanotechnology.

Based on this concept, KAIMRC as a prime biomedical research institute in the KSA and the region, is leading the path to establish therapeutics discoveries and development platforms. Moreover, with renowned researchers, medical doctors, experts and professional clinical trial facilities, KAIMRC is playing important roles in clinical trials aiming to enter phase 1 and early phase new drug development.

KAIMRC conference on “**Therapies Discoveries From Bench to First In Humans Trials**” will provide an interdisciplinary forum for scientific investigators interested in the latest trend in therapeutics discoveries approaches, advanced drug delivery system and clinical trials that would be covered in the following sessions:

Encountering difficulties? Contact Technical Support for assistance.

SUBMISSION CHECKLIST

Indicate that this submission is ready to be considered by this conference by checking off the following (comments to the director can be added below).

- Abstracts should not exceed than 250 words (Abstracts with more than 250 words will be rejected)
- Abstracts should include the background, objective, method, result and conclusion
- Submission of an abstract constitutes a commitment by the submitter/presenter to present if accepted.

COPYRIGHT NOTICE

Authors who submit to this conference agree to the following terms:

a) Authors retain copyright over their work, while allowing the conference to place this unpublished work under a Creative Commons Attribution License, which allows others to freely access, use, and share the work, with an acknowledgement of the work's authorship and its initial presentation at this conference.

b) Authors are able to waive the terms of the CC license and enter into separate, additional contractual arrangements for the non-exclusive distribution and subsequent publication of this work (e.g., publish a revised version in a journal, post it to an institutional repository or publish it in a book), with an acknowledgement of its initial presentation at this conference.

c) In addition, authors are encouraged to post and share their work online (e.g., in institutional repositories or on their website) at any point before and after the conference.
